

About Us

Centre of Advanced

Manufacturing & Material Processing (AMMP CENTRE) is a dynamic team comprising of local academicians and engineers, working together in numerous academic and industrially-linked researches and consultation projects. The group has evolved from a 'small discussion platform' of several like-minded researchers to a fully-operational consultation and research group in University of Malaya. The AMMP Group envisions to become the leading authority in Advanced Manufacturing & Material Processing field in Malaysia and a renowned expert group in South-East Asia.

Vision
